Inland Rail is a once-in-a-generation project connecting regional Australia to domestic and international markets. Australian Rail Track Corporation (ARTC) has engaged INLink (a joint venture between BMD Constructions and Fulton Hogan) to upgrade and build the first section of the Inland Rail, from Parkes to Narromine.

Temporary Works

As part of our construction work, we are upgrading level crossings between Parkes and Narromine. While we do this, we need to temporarily close public roads to lay the new rail.

Timing and location of works:

Trewilga Road, Trewilga;

- ▶ Between Taweni Road and the Newell Highway
- ▶ From **Monday 28 October till end December 2019.**

What we will be doing

- ▶ Laying new rail and sleepers
- ▶ Build road formations and new plate over rail
- ▶ Welding rail into place
- ▶ Install new gravel (ballast), tamp (adjust) rail into place
- ▶ Install permanent signage and fencing
- ▶ Please see attached fact sheet: Laying Rail.

What to expect

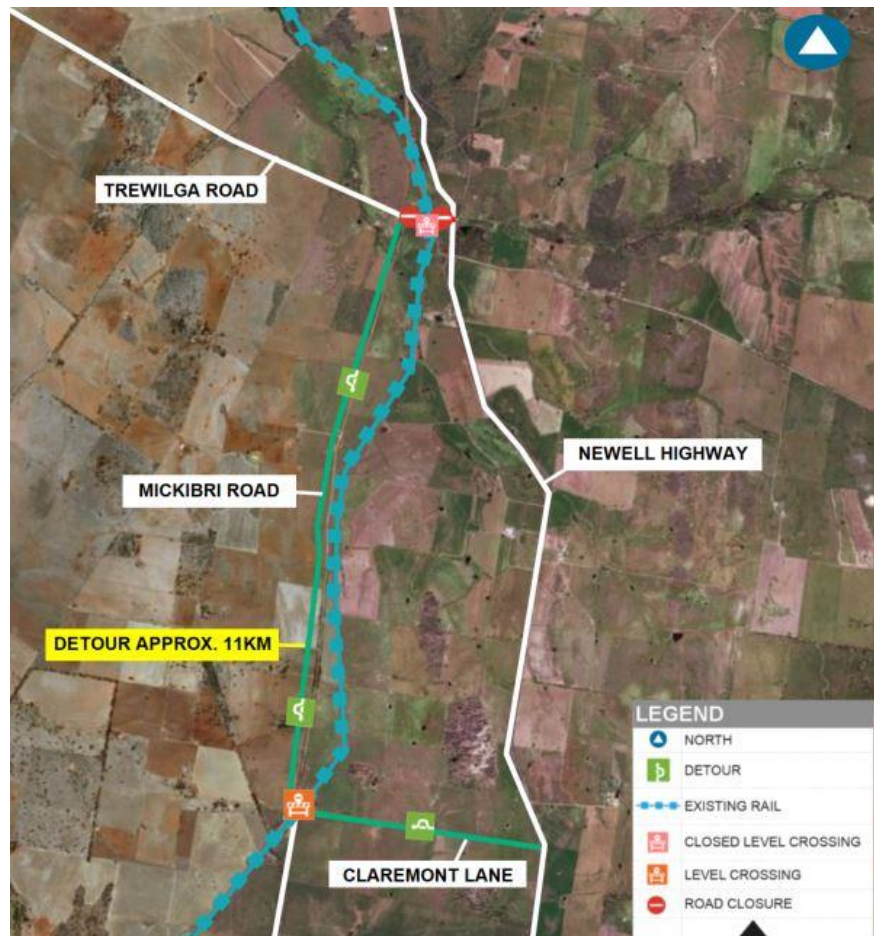

- ▶ During the work there will be heavy vehicles travelling to and from the work sites
- ▶ Traffic management with detour signage will be in place to assist those impacted by the road closure.

Community Safety

- ▶ **Once rail has been installed in each section, the rail will be 'live' and construction trains will be intermittently passing across the level crossing. For your continued safety, please ensure you obey all signage at level crossings.**

If work is required outside these hours, impacted residents will be notified in advance.
