

# PARKES TO NARROMINE INLAND RAIL

**NOTIFICATION  
No.6, February 2019**

## Preparing to build Inland Rail: Site Establishment – Peak Hill

Inland Rail is a once-in-a-generation project connecting regional Australia to domestic and international markets. It will complete the spine of the national freight network between Melbourne and Brisbane via regional VIC, NSW, and QLD.

Australian Rail Track Corporation (ARTC) has engaged INLink (a joint venture between BMD Constructions and Fulton Hogan) to upgrade and build the first section of the Inland Rail, from Parkes to Narromine.

### Commencement of Site Establishment Works

In preparation for the construction of the Inland Rail, site establishment will commence from Wednesday 13 February 2019. Site offices will be installed on Coradgery Road, Peak Hill, near the level crossing. Please see the map below, and over the page for further information.

### Map of site location

In the coming months we will start construction on the Inland Rail in Peak Hill. Residents will be notified prior to the commencement of works.

We expect to finish all work on Inland Rail in this area mid-2020.

**NOTIFICATION  
No.6, February 2019**

## What we will be doing

### Construction of a site facility

- Clearing of the site including earth works, removal of vegetation and existing structures
- Create new access roads and hardstand areas for use as car parks and equipment storage
- Establishment of demountable buildings, storage areas and temporary fencing
- Delivery of machinery and other construction equipment
- Investigation works including soil sampling, and service locating with the use of coring drills and vacuum trucks
- Service relocation

### Environmental monitoring

- Installation of environmental monitoring equipment and ongoing monitoring including noise, air quality and vibration

### Community safety

- All work sites will be clearly signed, secured and monitored to ensure public safety

### **Work hours**

Our standard working hours are between:  
7:00 am to 6:00 pm Monday to Friday  
8:00 am to 1:00 pm Saturday.

In the event that work is required outside these standards working hours, impacted residents will be notified in advance.

There may be an increase in noise and traffic movements in the area during our works. Every effort will be made to minimise impacts to the surrounding community. We appreciate your understanding as we build this once-in-a-generation project.

*Document number: 5-0012-240-PCS-00-FS-0013*
