

# A2I | Project Update – May-June 2025

## Junee to Illabo

Martinus Rail recently undertook a track possession in May on the Albury to Illabo section of Inland Rail with works occurring between Junee and Illabo. The possession ran from Saturday 3 May to Monday 5 May 2025 with work continuing into the night period.

We would like to thank all of our community members in the Illabo region for their patience and understanding during this period.

### Possession Works Completed

- Culvert Works (2 x culverts near Illabo)
- Shoulder Reconditioning Works (290m)
- Track Resurfacing (2.6km)
- Track Destressing and Verse Testing

Site #5 - Junee to Illabo track works during the recent May possession. (3 - 5 May 2025)

### Upcoming Works

Construction will continue as per normal hours, outlined below until our next rail possession in September 2025.

- 7AM – 6PM Monday to Friday,
- 8AM – 6PM Saturday,
- No work scheduled on Sundays

### Upcoming Works Continued.

#### Kemp Street Bridge - Junee May 2025

- Service locating survey works will take place along the corridor and around the neighbouring roads near Kemp Street Bridge. This work will be conducted by a surveyor on foot and will be low impact to the community.
- The full list of roads can be found below; with a map located overleaf,
  - Olympic Highway (between Gaba Tepe Ave and Broadway Street)
  - Olympic Highway (between Kemp Street and Anzac Avenue)
  - Joffre Street (between Pretoria Avenue and Kemp Street)
  - Pretoria Avenue (between Olympic Highway and Joffre Street)
  - Edgar Street (between William Street and Hill Street)
  - Ducker Street (between George Street and Hill Street)
  - Kemp Street (between Joffre Street and Ducker Street)

#### June 2025

- **25-29 June** Geotechnical investigations and pavement cores will be conducted adjacent to the Broadway roundabout on Seignior Street, Junee.

#### Junee to Illabo May 2025

- Regular deliveries will be accepted to the Illabo site compound located at the GrainCorp silo.
- This site compound will continue to run as normal until the foreseeable future
- Cadastral surveys will continue within the Illabo area.
- Ongoing Dynamic Cone Penetrometer (DCP) testing will occur within the corridor

*Service Locating Works will take place in the orange area.  
With geotechnical investigations to be conducted in the red dotted area.*

### Vehicle movements

- During construction, vehicle movements will be to and from site, as well as on site. Sites will be accepting deliveries during ongoing construction (Illabo).
- Traffic controllers and speed restrictions will be in place to safely direct traffic along Seignior Street / Broadway Street roundabout.
- Temporary speed changes along the Olympic Hwy near Illabo.

### What can I expect?

Unfortunately, some construction activities are inherently noisy which cannot be avoided. Properties near these areas can expect to hear:

- Heavy vehicle movements, geotechnical investigations and pavement coring.
- excavation activity involving the removal of existing surfaces such as rock, soil, pavement, and other substances
- movements of heavy vehicles
- loading, unloading or moving equipment and construction materials

### How we're managing impacts

- Traffic controls will be in place where required.
- Water carts will be on-site to wet down areas to assist in managing dust.
- Works programmed to best minimise noise impacts. We will aim to minimise noise from the works.
- Works will be monitored to ensure compliance with Project Conditions of Approval
- Use of non-tonal reversing alarms on all equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours.
