

Geotechnical and Survey Investigation – Albury

June – September 2025

Martinus has been engaged to undertake construction on the Albury to Illabo section of the Inland Rail project in New South Wales.

Martinus will undertake various investigation and survey work within the railway corridor and adjacent road surfaces in Albury from **June to September 2025**, weather and ground conditions permitting.

The work will occur during normal construction hours of **7am to 6pm Monday to Friday** and **8am to 6pm** on **Saturday**.

In the event that work is required outside these construction hours, impacted neighbours will be notified in advance.

Work being done

- cadastral survey and mapping
- environmental surveys and monitoring
- geotechnical and service investigations, including non-destructive digging (NDD)
- minor signalling work

What can I expect?

- survey and testing equipment will be operating on-site during the hours noted above
- traffic management may be required in some locations where works are occurring close to roads or for safe access. Please observe all traffic management instructions and signage
- increased vehicle movements with site vehicles and support vehicles accessing work sites
- nearby residents may experience some daytime noise

Machinery used

Equipment used for work includes but is not limited to, excavators, drill rigs, small truck mounted drill rig, NDD truck, water carts and support vehicles, workers using hand tools and survey equipment, traffic management equipment and signage.

How we're managing impacts

- Use of non-tonal reversing alarms on all equipment and turning off equipment when not in use
- Instructing workers to keep noise to a minimum and being respectful of our neighbours
- Works will be monitored to ensure compliance with Project Approval Conditions.
