

# A2I | July - August 2025 Monthly Update

## Junee & Junee to Illabo

Martinus has been engaged to undertake construction on the Albury to Illabo section of the Inland Rail project in New South Wales.

The work will occur during our standard construction hours  
**7am to 6pm Monday to Saturday.**

In the event that work is required outside these construction hours, impacted neighbours will be notified in advance.

### Work Scheduled

Martinus will continue to undertake work in Junee and between Junee to Illabo, weather and ground conditions permitting.

#### Junee – Kemp Street Bridge

- Service and geotechnical investigation, including non-destructive digging (NDD) and backfilling around the Kemp Street precinct. (Ducker Street, Kemp Street, Edgar Street, Railway Parade, Pretoria Avenue and Joffre Street)
- Geotechnical investigation within the rail corridor and adjacent road reserves.
- Vegetation Clearing along Edgar Street, Kemp Street, Railway Parade and Seignior Street
- Track works including removal of track North of Kemp Street bridge.
- Installation of environmental controls
- **Late-August 2025** – Kemp Street Bridge planned for closure. Traffic diversions to be in place.

#### Junee – Olympic Highway Underbridge

- Regular material deliveries including ballast ahead of future track works.
- Cadastral surveys, environmental testing and sampling
- Dynamic Cone Penetrometer (DCP) testing will occur within the corridor
- Service locating works and non-destructive digging (NDD)

#### Junee to Illabo

- Regular material deliveries will be accepted to the Illabo site compound located at the GrainCorp silo, including ballast deliveries.
- Cadastral surveys, environmental testing and sampling will continue within the Illabo area.
- Dynamic Cone Penetrometer (DCP) testing will occur within the corridor
- Culvert and drainage works; installing headwalls, handrails and walkways.
- Service and geotechnical investigation, including non-destructive digging (NDD)
- Signalling works
- Track works including shoulder reconditioning
- Rail safety procedures to be applied within the area inside the corridor. Directly impacted residents will be contacted individually with more information.

#### Temporary traffic changes near you

- During construction, vehicle movements will be to and from site, as well as on site.
- Traffic controllers will be in place to safely direct traffic around Kemp Street and Seignior Street Junee.
- Temporary speed changes along the Olympic Hwy near Illabo.

#### What can I expect?

Unfortunately, some construction activities are inherently noisy which cannot be avoided. Properties near these areas can expect to hear:

- Heavy vehicle movements, geotechnical investigations and pavement coring.
- Excavation activity involving the removal of existing surfaces such as rock, soil and pavement
- Loading, unloading and moving equipment and construction materials

#### Machinery Used

Equipment used for work includes but is not limited to hand-held tools, non-destructive digging truck, drilling rig, water carts, survey equipment, power washer, tipper truck, skid steer, traffic management equipment, heavy and light vehicles.

## How we're managing impacts

- Traffic controls will be in place where required.
- Water carts will be on-site to wet down areas to assist in managing dust.
- Works programmed to best minimise noise impacts.
- Works will be monitored to ensure compliance with Project Conditions of Approval
- Use of non-tonal reversing alarms on all equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours.
