

A2I | March 2026 Monthly Update

Junee and Junee to Illabo

Upcoming out-of-hours construction:

Junee to Illabo

Key dates and times

- 22 Mar – Sunday 9am – 8pm
- 23 Mar – Monday 6pm – 12pm

Construction activities:

- Track works
- Material transportation between stockpiles and site compounds.
- Geotechnical investigations
- Traffic control may be in place
- Site compound operation (Illabo and Marina)

Olympic Highway under bridge

Key dates and times

- 22 Mar – Sunday 9am – 8pm
- 23 Mar – Monday 6pm – 12am
- 12 Apr – Sunday 9am – 8pm
- 13 Apr – Monday 6pm – 12am
- 26 Apr – Sunday 9am – 8pm
- 27 Apr – Monday 6pm – 12am
- 10 May – Sunday 9am – 8pm
- 11 May – Monday 6pm – 12am

Construction activities:

- Track works (tamping and trench rolling)
- Material transportation between stockpile locations and site
- Geotechnical investigations
- Traffic control will be in place as needed
- Site compound operation

Junee Driver Interchange Platforms (North and South)

Key dates and times

- 24 Mar – Tuesday 6pm – 10pm
- 25 Mar – Wednesday 6pm – 10pm

Construction activities:

- Installation of lighting, civil works, carpark and associated elements related to the interchange platform (i.e. bollards)
- Signal works
- Site compound operation (Wright's Oval)

Upcoming regular construction works scheduled

Regular construction work will occur during our standard construction hours of **7am to 6pm Monday to Saturday**. Scheduled works are subject to track availability.

Junee to Illabo

- Track works
- Material transportation between site compounds
- Site compound operation
- Geotechnical activities
- Culvert handrail installation and finishing works

- Asbestos removal may be necessary. Where identified, removals will be carried out by a licensed contractor with SafeWork NSW regulations and industry best practices. Strict safety measures will be in place to ensure there is no risk to community or the environment.
- Track Under bores for Service installation
- Vegetation Clearing
- Crane pad construction
- Service investigation

Olympic Highway under bridge and Junee Station yard

- Vegetation clearing
- Geotechnical activities
- Signalling works
- Track works
- Stockpile and material transportation between sites

Junee Driver Interchange Platforms (North and South)

- Vegetation trimming
- Civil works
- Carpark installation
- Lighting Installation
- Install of platform components

Kemp Street bridge

- Asbestos removal may be necessary. Where identified, removals will be carried out by a licensed contractor with SafeWork NSW regulations and industry best practices. Strict safety measures will be in place to ensure there is no risk to community or the environment.
- Abutment excavation, demolition and loadout
- Access track construction
- Piling works including platform construction
- Survey works
- Geotechnical investigations
- Contamination testing and remediation works (if encountered)
- Construction of concrete bridge piers and other substructure elements
- Installation of temporary road signage, fencing and barriers.
- Drainage works
- Earthworks and installation of reinforced soil walls (RSW)
- Utility investigation works

Albury to Illabo

- Low impact survey activities will occur in and around the corridor across the entire alignment as part of the overhead wiring program.
- Near neighbours will be notified in advance

Temporary traffic changes near you

- During construction, vehicle movements will be to and from site, as well as on site.
- Traffic controllers will be in place to safely direct traffic as needed

What can I expect

Unfortunately, some construction activities are inherently noisy which cannot be avoided. Properties near these areas can expect to hear:

- Excavation activities involving the removal of existing surfaces such as rock, soil, bridge segments, bridge abutments, existing roads and transportation of materials
- Heavy vehicle movements, geotechnical investigations and pavement coring.
- Loading, unloading and moving equipment including cranes and materials
- You may see an increase in deliveries of plant, equipment and materials to all our site compounds, ancillary facilities and laydown areas in the lead up to the possession. (Illabo, Marinna, Olympic Highway Underbridge, Kemp Street and Wright's Oval.
- Construction machinery and equipment operation.

How we're managing impacts

- Works programmed to best minimise noise impacts.
- Use of low-tonal reversing alarms on all plant and equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours.
- Water carts onsite to assist with dust suppression and fire risks.
- Onsite noise monitoring to be conducted to ensure compliance

Equipment list

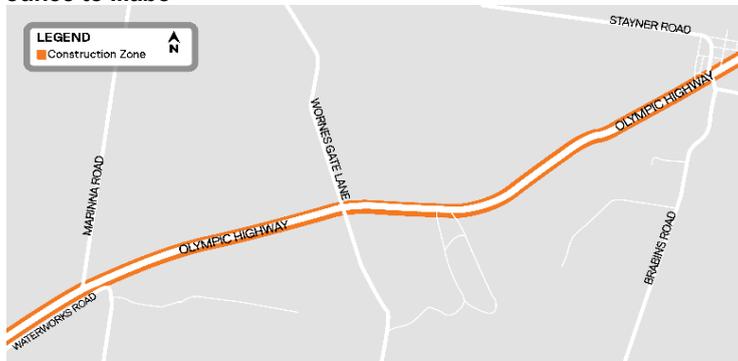

- Backhoe, ballast equipment, compactor, compressor, concrete agitator truck, elevated work platforms, excavators, front end loader, generator, grinders, hand tools, hi-rail equipment, hydraulic tools, jumping jack, lighting towers, mobile cranes, plate compactor, positrack, rail saw, road sweeper, rollers, telescopic handler, truck & dogs, light and medium rigid vehicles, vacuum trucks, watercarts.

Thank you for your patience and cooperation while we carry out these works.

Worksite locations

Junee to Illabo

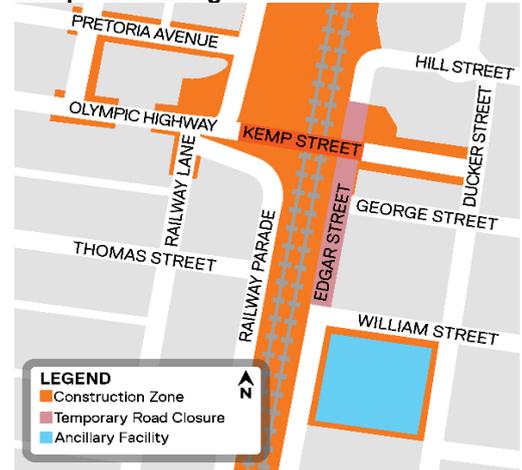

Junee Driver Interchange Platforms (North and South)

Olympic Highway Underbridge

Kemp Street Bridge

Possession works completed

Martinus recently undertook major construction works during a statewide track possession all sites between Junee and Illabo

Junee to Illabo

- 500 tonnes of ballast moved
- 400 tonnes of capping placed
- 540 man hours worked
- 250m of shoulder reconstruction

Olympic Highway under bridge

- 1,000 tonnes of ballast moved
- 1,080 metres of track slewed and adjusted
- 1,000 man hours worked

Kemp Street bridge

- 2 x driver interchange platforms installed
