Kemp Street bridge

Standard construction hours:

7am to 6pm Monday to Saturday (subject to track availability).

Construction activities:

- Asbestos removal may be necessary. Where identified, removals will be carried out by a licensed contractor with SafeWork NSW regulations and industry best practices. Strict safety measures will be in place to ensure there is no risk to community or the environment.
- Abutment excavation, demolition and loadout
- Access track construction
- Piling works including platform construction
- Survey works
- Geotechnical investigations
- Contamination testing and remediation works (if encountered)
- Construction of concrete bridge piers and other substructure elements
- Installation of temporary road signage, fencing and barriers.
- Drainage works
- Earthworks and installation of reinforced soil walls (RSW)
- Utility investigation works

Junee Driver Interchange Platforms (North and South)

Standard construction hours:

7am to 6pm Monday to Saturday (subject to track availability).

Construction activities:

- Vegetation trimming
- Civil works
- Carpark installation
- Lighting Installation
- Install of platform components

Albury to Illabo

Standard construction hours:

7am to 6pm Monday to Saturday (subject to track availability).

Construction activities:

- Low impact survey activities will occur in and around the corridor across the entire alignment as part of the overhead wiring program.
- Near neighbours will be notified in advance.

How we're managing impacts

- Works programmed to best minimise noise impacts.
- Use of low-tonal reversing alarms on all plant and equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours.
- Water carts onsite to assist with dust suppression and fire risks.
- Onsite noise monitoring to be conducted to ensure compliance

Temporary traffic changes near you

- During construction, vehicle movements will be to and from site, as well as on site.
- Traffic controllers will be in place to safely direct traffic as needed

What can I expect

Unfortunately, some construction activities are inherently noisy which cannot be avoided. Properties near these areas can expect to hear:

- Excavation activities involving the removal of existing surfaces such as rock, soil, bridge segments, bridge abutments, existing roads and transportation of materials
- Heavy vehicle movements, geotechnical investigations and pavement coring.
- Loading, unloading and moving equipment including cranes and materials
- You may see an increase in deliveries of plant, equipment and materials to all our site compounds, ancillary facilities and laydown areas in the lead up to the possession.
- Construction machinery and equipment operation

Equipment list

Backhoe, ballast equipment, compactor, compressor, concrete agitator truck, elevated work platforms, excavators, front end loader, generator, grinders, hand tools, hi-rail equipment, hydraulic tools, jumping jack, lighting towers, mobile cranes, plate compactor, positrack, rail saw, road sweeper, rollers, telescopic handler, truck & dogs, light and medium rigid vehicles, vacuum trucks, watercarts.

May rail possession

Martinus will carry out track and associated works within the rail corridor, between Junee and Illabo, during an extended track possession.

Out-of-hours works will commence at **7am on Saturday 2 May 2026** and conclude at varying times until **Wednesday 6 May 2026**.

Further details on works and times will be provided in a separate notification at a later date.

Cancellation of works

Work may be cancelled at short notice due to weather and other factors. If this happens, work will be rescheduled and affected neighbours will be notified in advance.

For any complaints, feedback, or enquiries please get in touch with us at **1800 732 761** or email inlandrailnsw@inlandrail.com.au.

Information about Inland Rail is available at <https://inlandrail.com.au/>

Thank you for your continued patience and cooperation while we carry out these works
