

Heavy vehicle movement out of hours

Cassidy Parade Turvey Park – 2 April 2026

Martinus our construction contractor will commence bridge piling works for the new Cassidy footbridge at Wagga Wagga.

Piling is an important step in building strong foundations to support the new bridge, requiring the use of large and over-sized rigs and cranes. These machines cannot be transported on standard trucks, so they require special oversized vehicles.

Works being done

Delivering over-sized heavy machinery to site, scheduled in early mornings out of normal construction hours when traffic is light to minimise disruption to the community and road network.

When will works occur

Heavy vehicles will deliver essential piling machinery with a pilot vehicle under traffic control to Cassidy Parade on Saturday 28 March 2026 during normal construction hours.

To safely demobilise and remove the over size and over mass vehicle from Cassidy Parade, the vehicles will move outside of normal construction hours:

Depart from Cassidy Parade on **2 April starting at 6am** with movements of plant throughout the day and between school hours.

Machinery used

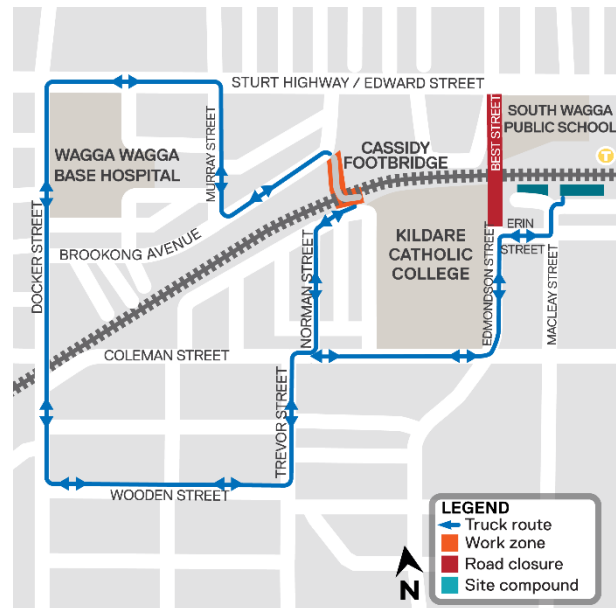

Pilot vehicle, flatbed semi-trailer, piling rig and mobile crawler crane, light vehicles and lighting towers.

What can I expect?

- Pilot vehicle and traffic control will be on site to safety move machinery
- Stop / go traffic management during unloading
- Some noise while vehicles are unloaded
- Increased lighting during these times, we will direct lights away from homes.

How we're managing impacts

- Delivery will be planned out of hours to reduce impact to the traffic network and community
- Noise monitoring, use of non-tonal reverse alarms and turn off vehicles not in use.

Map: Heavy vehicle movement route

Cancellation of works

Works can sometimes be cancelled at short notice due to weather and other factors. Should this occur, work will be rescheduled during normal construction hours.
