

Cassidy footbridge demolition

Wagga Wagga

July - September 2026

Martinus will commence the demolition of the existing Cassidy footbridge commencing 7 July 2026

Activities will take place on both sides of the railway line (Cassidy Parade and Brookong Avenue) and will move progressively across the site.

The ramps and elevated sections of the bridge will be removed during this time, with the piers and footings closest to the tracking to be removed during September track possession (11-14 September).

When will works occur

Works will be conducted during normal construction hours Monday – Saturday 7am to 6pm.

If out of hours is required impacted residents will be notified in advance.

Work being done:

- Set up the work area, including fencing, signage and equipment deliveries
- Disconnect any services in the work area
- Delivery and installing platforms for safe working
- Install lifting points on the bridge so cranes can safely remove sections
- Using cranes to lift and remove sections of the bridge
- Breaking up the concrete with supports using heavy impact machinery, load and transport from site
- Excavating and removing underground foundations

What can I expect?

- **The Cassidy temporary scaffold bridge will remain open during these works**

maintaining pedestrian connectivity.

- When breaking up the concrete supports some vibration might be felt. Some activities will be high impact noise in short duration.
- Increased noise from machinery, particularly during, concrete breaking, bridge section removal using cranes
- Increased truck movements in and around the site
- Temporary traffic control in place during deliveries, lifting and removal works
- During school holidays Cassidy Parade will be closed to vehicles between Norman Street and Kildare Street, with local resident access only
- Temporary exclusion zones will be in place during high-risk activities such as lifting bridge sections.

Machinery used

Specialised machinery is required to perform this work safely. These include mobile cranes, elevated work platform, excavator with hydraulic hammer and attachments, tipper trucks.

How we're managing impacts

- Noise and vibration monitoring will be conducted on site in accordance with our Environment Protection Licence (EPL 21984)
- Ensure high noise intensive activities do not continue for more than three hours at a time, with at least a one-hour break before they resume.
- Traffic control will be used as required on Cassidy Parade.
- Parking restrictions may be in place around the worksite.
