Work being done

Crews will pour concrete and install steel reinforcement and formwork for the new bridge walls that will support the Edmondson Street bridge structure.

Some concrete pours may continue into the evening.

Installation of bridge wall reinforcements and formwork will occur during Sunday day shifts only.

What to expect

- The Edmondson Street site compound will remain in operation during works.
- Cranes and elevated work platforms will be used to safely move materials and access the work area.
- Site lighting will be used to keep the work area safe.
- Some noise from concrete trucks and other vehicle movements to and from site.
- Some vibration may be felt while crews finish the concrete.

Equipment used

To complete the works there will be a combination of heavy machinery, concrete trucks, a concrete boom pump, handheld concrete finishing equipment, a Franna crane, elevated work platforms and lighting towers.

Machinery is selected to ensure work is completed safely and minimise disruption to the community.

How were managing impacts

- Noise and vibration monitoring will be carried out on site in line with Environment Protection Licence 21984.
- Traffic control in use as required.
- Lighting will be directed away from nearby properties where practicable.

Cancellation of work

Work may be cancelled at short notice due to weather or other site conditions. If this occurs, the work will be rescheduled.
