1 Definitions and Abbreviations

1.1 Definitions and Abbreviations

Definitions and abbreviations to be applied to the Social Impact Management Plan Quarterly Progress Report are listed below.

Table 1: Definitions

Definition	Definition
Apprentice	An employee of an Apprentice Employer undertaking a recognised Australian Apprenticeship program and related qualification and holding a formal training contract who has been employed by that employer for a minimum continuous period of 26 weeks on the Project.
Contractor	Any business which has a direct relationship with Inland Rail to supply goods, equipment or services to the Project.
Indigenous Business	Any business that is 50 per cent or more Indigenous-owned and meets the definition of an Indigenous enterprise under the Australian Government Indigenous Procurement Policy including: ▪ registration as an Indigenous business by Supply Nation (formerly the Australian Indigenous Minority Supplier Council); ▪ recognition as an Indigenous business by the Office of the Registrar for Indigenous Corporations (ORIC); ▪ certification as an Indigenous business by the Indigenous Chamber of Commerce in the state the business is located; or ability to provide evidence of Indigeneity in the form of: ▪ a statutory declaration, declaring that the enterprise is 50 per cent or more Indigenous owned; or ▪ certificates or letters of Indigenous organisation such as a land council.
Indigenous Person	Any person who: ▪ is of Aboriginal or Torres Strait Islander descent; ▪ identifies as an Aboriginal or Torres Strait Islander person; and ▪ is accepted as such by the community in which they live or formerly lived.
Local Area	Identified Local Government Areas (LGAs) in the Project Area and Region. Note: the term 'Local' shall be understood in this context.
Local Business	Any business whose street address is located in the Project Area or Region, and which employs Local Residents.
Local Resident	Any person whose principal place of residence is located in the Project Area or Region.
Project Area	Identified Local government areas (LGAs) intersected by the Rail Corridor for the I2S project, being Cootamundra-Gundagai, Junee and Temora
Project Area Business	Any business whose street address is located in the Project Area, and which employs Project Area Residents.
Project Area Resident	Any person whose principal place of residence is located in the Project Area.

Definition	Definition
Region	Identified Local government areas (LGAs) outside the Project Area, but within an approximate 125km radius of the rail corridor for the I2S project including: ▶ Australian Capital Territory ▶ Bathurst ▶ Bland ▶ Blayney ▶ Cabonne ▶ Coolamon ▶ Cowra ▶ Federation ▶ Forbes ▶ Greater Hume ▶ Hilltops ▶ Lachlan ▶ Leeton ▶ Lockhart ▶ Narrandera ▶ Parkes ▶ Snowy Manaro ▶ Snowy Valleys ▶ Upper Lachlan ▶ Wagga Wagga ▶ Weddin ▶ Yass Valley The term 'Regional' shall be understood in this context.
Regional Business	Any business whose street address is located in the Region, and which employs Local Residents.
Regional Resident	Any person whose principal place of residence is located in the Region.
Trade Position	Any person that holds a trade qualification or certification for the trade in which they are engaged or a tradesperson on the Project. This includes any person who has qualified, or qualifies by service as an apprentice, for employment as a tradesperson.
Workforce	All workers employed directly or contracted by the Contractor or any Subcontractors inclusive of management and professional, technical and trade positions.

LALC	Local Aboriginal Land Council
CEMP	Construction Environmental Management Plan
REMC	Regional Emergency Management committee
LEMC	Local emergency management committee
PMP	Property Management Plan
CCS	Community Consultation Strategy

2 Introduction

2.1 Purpose of the Report

This Quarterly Social Impact Monitoring Report has been prepared in accordance with Condition of Approval E110(e) and Section 8.1 of the approved Social Impact Management Plan (SIMP).

The report:

- Tracks performance against the mitigation measures and indicators in **Tables 7.1–7.6**
- Summarises monitoring data provided by John Holland (construction phase)
- Identifies emerging social risks, trends or implementation gaps
- Supports adaptive management and continuous improvement
- Provides information to be published on the Inland Rail project website and tabled at Community Consultative Committee (CCC) meetings

2.2 Project Progress

Reporting Period: April – June 2026.

Over the past three months, the Communications team has maintained consistent and effective engagement with local landowners and the broader community as project activities progress. Through personalised interactions, the team has facilitated meaningful dialogue, assisting with matters such as livestock movement, sharing project updates, and addressing concerns promptly. These efforts have strengthened relationships and ensured the team's availability to respond to stakeholder needs.

In April, the team focused on direct engagement with landowners, leveraging subject matter experts to provide tailored support and resolve concerns. Complaints were treated as learning opportunities, with resolutions shared through the Daily Bulletin and pre-start meetings at each site.

In May and June, outreach efforts were expanded to include neighbouring properties beyond directly impacted landowners, ensuring broader community awareness. The team developed communication plans and materials to inform stakeholders of upcoming construction activities, such as blasting, bridge construction, and associated traffic impacts. During both months, a single complaint was received and resolved to the satisfaction of the affected landowners.

Overall, the Communications team's proactive and inclusive approach has effectively supported project activities while fostering positive relationships and maintaining transparency with stakeholders.

2.3 Case Studies

2.3.1 Rock blast – Community Safety

The I2S Project team has reached an exciting early milestone, successfully completing its first blast on-site on Friday 26 June 2026 for the Illabo to Stockinbingal project.

In the lead-up to the blast, extensive planning was undertaken to ensure a safe and well-coordinated operation, with a specialist drill and blast contractor engaged to carry out the works. The team worked diligently over two weeks, undertaking drilling activities and preparing the site for the first blast.

To ensure the safety of workers, and the community, all blasting activities were undertaken by licensed contractors and experienced shotfirers in accordance with relevant legislation, approved blast management plans, and industry best practices. Safety measures included:

- Establishing controlled exclusion zones around blast locations.
- Deploying blast controllers, blast sentries, and traffic control personnel as required.

- Using audible warning sirens prior to each blast.
- Temporarily restricting access to exclusion zones during blasting operations.

Strict exclusion zones were established, and environmental monitoring was conducted to ensure compliance with safety and environmental standards. The blast was carried out under approved procedures and permits, with nearby landholders, stakeholders, and emergency services notified in advance to ensure all parties were informed and prepared. Post-blast monitoring confirmed the operation was performed as designed. Access was restored promptly once the blast area was inspected and declared safe.

To ensure the community were well notified of the event and supported through the activity the following steps were put in place:

- 30 Days Prior – the community received written notification of the blasting activities
- 7 Days Prior – members of the community received a call from the John Holland Community Stakeholder team alerting them to the activities.
- 24 Hours Prior – residents received an email communicating the event.
- During the Event – where required residents received in person support during the blast.
- Post Event – a Facts Sheet was communicated to the public to dispel any myths or concerns associated with the blasting event.

With the support of the Community team, Jake Mossman, Senior Project Engineer overseeing the works, reflected on the achievement: “It was great to see the success of our first blast on-site. This was the result of a lot of effort from our entire hard-working team, including our subcontractor Precision Drill and Blast, who put many hours of preparation into ensuring the blast was executed on schedule but most importantly without incident.”

This milestone highlights the strong collaboration across teams and contractors, setting a positive tone as the I2S project continues to progress.

2.3.1 John Holland – Integrating into the local community

The I2S team continues to work with and integrate into the local communities, this has been done through several initiatives:

- Ongoing volunteering for Meals on Wheels every second Sunday of each month
- School visits and presentations at Elouera Special School, Illabo & Stockinbingal Public Schools
- I2S supported fundraising and entered a team into the Eurongilly Trivia night
- Supported a landowner through providing mulch from the project to assist with landscaping at new property constructed as a result of the project
- I2S workforce and subcontractors are connecting with local community through social group activities such as bingo at Cootamundra RSL club, Trivia nights at the Central Hotel in Cootamundra and exploring new dining establishments in the local areas
- Attended career expos in Cootamundra and Young providing students with access to a wide variety of career options and information provided by highly trained experts within the construction industry.
- Supplied residents of Adina aged care facility with information regarding the project
- Supplied Probus club with a project overview
- Provided STEM activities for the Stockinbingal and Illabo Public Schools
- Attended and supported MND fundraiser at Stockinbingal Elwoods Hall
- Provided volunteers to assist with the cooking of the AECG school Barbeques

2.3.2 Constructing Culture

During Q2 John Holland have undertaken a range of initiatives to celebrate and support the individuals and community we are working with. Below is a summary of some key highlights from our recent activities.

R U OK day:

- John Holland hosted R U Ok day. The event combined Australia's Biggest Barbecue and fundraising for the Touched by Christopher Foundation. Over 100 team members joined in for the day to raise awareness for safety and wellbeing within the workplace.

Local Youth Training:

- John Holland continues to support a year 10 school-based trainee from Cootamundra High School through GTO MEGT. The SBAT is enrolled into a Business Services Cert III through TAFE. The trainee will gain valuable work experience with our Finance, Procurement and Commercial team.

Wiradjuri Cultural Learning:

- John Holland held a second Wiradjuri language lesson to continue to learn and connect with the local area.
- John Holland has been actively involved in initiatives aimed at fostering cultural awareness and inclusivity. Collaborating with local Indigenous communities to create opportunities for team members to learn the Wiradjuri language through podcasts is an excellent example of this commitment.

I2S Cultural Immersion Tour:

Members of the I2S Project team recently participated in a Cultural Immersion Tour on Wiradjuri Country, reflecting Inland Rail and John Hollands commitment to fostering cultural understanding and recognising the ongoing connection to Country.

The tour was facilitated by Peter Beath from the Cootamundra Aboriginal Working Party and provided the team with an opportunity to deepen their understanding of the history, stories, and cultural significance of several local sites around Cootamundra and Dirnaseer.

The day began at Muttama Creek, located near the Cootamundra project office, a breeding ground for the local totem – the long-neck turtle. The group was welcomed with a Welcome to Country and a local storytelling session before travelling to several important sites, including the Cootamundra Railway Station, the Cootamundra Aboriginal Girls Home (also known as 'Bimbadeen'), Pioneer Park, and the Ochre Pit site near Dirnaseer Hall.

Throughout the tour, the team learned about the history of the area, the significance of Country, traditional Aboriginal life, and the connection between rail and the history of the Cootamundra Aboriginal Girls Home. They also viewed artwork by Auntie Faye Clayton, visited scar trees used to create canoes, shields, and coolamons, viewed traditional tools and participated in an Ochre Ceremony.

The experience allowed the team to take a step back from their day-to-day work and spend time listening, learning, and reflecting on the cultural significance of the areas we work in across the I2S project footprint.

A big thank you to Peter Beath, Trumaine Warcon, and everyone involved in organising and delivering the tour, and for sharing their valuable knowledge about Aboriginal culture and history with the team.

NAIDOC Week

John Holland starts preparations and planning for the upcoming NAIDOC week in Q3 with various activities planned including an afternoon Yarning Circle planting, First Nations inspired morning tea and art event and a First Nations camp dinner.

2.4 Responsibilities and Reporting Framework

Implementation and monitoring of the SIMP are coordinated by the John Holland I2S Project Team, with oversight from Inland Rail. Quarterly Social Impact Management Plan (SIMP) reports are published on the project website to meet Condition E110(e).

3 Progress in Meeting SIMP Targets

3.1 Workforce Management

PROJECT PHASE	DESIRED OUTCOME	INDICATORS AND TARGETS	METHOD	REPORTING FREQUENCY	UPDATE AS PER 30 June 2026
Pre-Construction / Construction	Maximised local employment opportunities. Employment opportunities are available to people of under-represented or vulnerable backgrounds, including Indigenous people, women, under 25's and the unemployed.	15% of total cumulative workforce should comprise of a Project Area workforce including the targeted social benefit demographics of the following: local and regional employees Indigenous people Women Under 25 years of age Apprenticeship/ traineeship positions.	Data: Workforce participation data Source: Construction Employment Register, Employment Enquiry Log	Monthly during construction	<u>Current Quarter (June 2026)</u> 8.97% of the Workforce are Project Area Residents <u>Previous Quarter (March 2025)</u> 9.09% of the Workforce are Project Area Residents
Pre-Construction / Construction		Minimum of 4 business workshops and/or meet-the-contractor events before major procurement	Data: Event logs; procurement engagement records.	Quarterly	<u>Current Quarter June 2026)</u> No events this quarter. <u>Previous quarters</u> Between 2023 and 2026, Inland Rail delivered 10 Business Capability Workshops across Cootamundra, Junee and Wagga Wagga, reaching 191 individual businesses. Workshop topics covered visibility and compliance, tender readiness, contract management and delivery, and meeting buyer requirements.

					Key outcomes: 99% of suppliers learned some or a lot of new information 94% would recommend the program to other businesses 99% found the Meet the Buyer sessions valuable Meet the Contractor Events (7 total): - Cootamundra – Aug 2025: 36 businesses - Young – Aug 2025: 16 businesses - Wagga Wagga – Mar 2025: 80 businesses - Cootamundra – Mar 2025: 56 businesses - Cootamundra – Mar 2023: 42 businesses - Junee – Mar 2023: 44 businesses - Wagga Wagga – Jul 2022: 89 businesses
Pre-Construction / Construction		Number of employment enquiries received from residents.	Data: Employment enquiry log; engagement records.	Quarterly	<u>Current Quarter (June 2026)</u> 4 Local people have directly contacted John Hollands I2S team enquiring about employment opportunities. <u>Previous Quarter (March 2025)</u> 22 Local people have directly contacted John Hollands I2S team enquiring about employment opportunities.
Pre-Construction / Construction	Skills improvement and structured training opportunities offered to	At least 25 residents from the Regional Study Area completed Inland	Data: IRSA training register; participation records,	Quarterly	<u>Current Quarter (June 2026)</u> Nil this quarter

	residents that lead to employment.	Rail Skills Academy courses. Inland Rail Skills Academy graduates can be successful in applying and receiving work on the project.	employment register.		<u>Previous quarters</u> Rail Readiness Pre-employment program delivered in Cootamundra. 8 local residents participated in the program, with 4 progressing to interviews with local contractor Manwaring Ag Services (Fencing Contractor). Total students to date = 210. Training completed by Inland Rail Skills Academy (Total students to date = 202), comprising 6 different competencies/qualifications. Training conducted in Cootamundra, Young and Wagga Wagga. 49 Regional Residents have completed the Inland Rail Skills Academy Rail Readiness program for I2S. - Program #1: Cootamundra, June. 10 local people, 7 interviews, 5 moved into roles and 1 potential to start in 2026 - Program #2: Young, August. 7 local people, 6 interviews, 2 offered roles - Program #3: Cootamundra, September. 17 local people, 12 interviews, 7 shortlisted. 1 person signed up to Manwaring Ag Services. - Program #4 & 5: Wagga Wagga, November. 15 interviewed with JH, Protech and WorkFast. 7 people signed up with Protech.
Pre-Construction		Workforce Management Plan completed and appended to SIMP. Plan includes documented retention	Data: Plan submission and approval records	Quarterly	Achieved. SDMP and Workforce Management Sub Plan developed

		and employment continuation strategies. Plan includes labour market monitoring protocols. Plan includes consultation schedule and agreed processes for FIFO or drive-time adjustments.	Source: Appendix D (Workforce Management Plan).		
Pre-Construction / Construction		Evidence of quarterly coordination with Inland Rail on employment continuation, once funding for future projects is confirmed. Worker retention options documented in progress reports.	Data: Meeting records with Inland Rail Source: Retention tracking reports	Quarterly	<u>Current Quarter (June 2026)</u> No updates to scope from previous quarter. Inland Rail is currently working within a Scope of Approved works South of Narromine. No future scope of works has been approved to date. <u>Previous Quarter (March 2025)</u> No updates to scope from previous quarter
Construction		Community satisfaction with perceived benefit delivery (target: maintain ≥70% satisfaction in perception survey or post-engagement feedback).	Data: Community perception survey results. Source: Community surveys.	Quarterly	<u>Current Quarter (June 2026)</u> A standing community survey is in place in the Community centre. Respondents to the survey are overall positive, with greater than 80% of the respondents positive about the project. <u>Previous Quarter (March 2026)</u> A Community Satisfaction Survey was not conducted in Q1 2026. Feedback from the community through general correspondence has been positive.

Construction		Monthly meetings held with Temora Shire, Cootamundra- Gundagai and Junee Shire Councils, business chambers and agricultural bodies to identify constraints in the labour market or concerns. Meeting attendance documented. Outcomes/actions recorded (e.g. drive time extension considered or enacted).	Data: Meeting minutes Source: Stakeholder engagement logs.	Quarterly	<u>Current Quarter (June 2026)</u> John Holland and Inland Rail hold monthly meetings with Junee and Cootamundra Council. No constraints in the labour market or concerns have been identified in these meetings. No meetings with Temora Shire as there are no impacts to their LGA at this time, this will be continually monitored. Temora Shire on a distribution list for information, however no formal meetings. <u>Previous Quarter (March 2026)</u> John Holland and Inland Rail hold monthly meetings with Junee and Cootamundra Council. No constraints in the labour market or concerns have been identified in these meetings. In the January CGRC Monthly Meeting John Holland raised the opportunity for a food/coffee van for the Dirnaseer Road Compound. No meetings with Temora Shire as there are no impacts to their LGA at this time, this will be continually monitored.
Construction	Avoidance of any potential negative impacts on the local and regional social localities, including service providers.	100% of workforce completes induction training covering code of conduct, local community expectations and cultural awareness.	Data: Number of complaints, induction completion rates, community	Quarterly	<u>Current Quarter (June 2026)</u> All project workers cannot access site without completing the project induction. 100% of workforce actively working on I2S have completed the project induction which

	Best efforts are made to contribute to a positive perception of community cohesion and minimises any activity that may hinder these efforts. Demand for existing social and community infrastructure and services are monitored.		perception survey results.		covers code of conduct, local community expectations and cultural awareness. To date 917 people have completed the online project orientation and 316 people have completed the face-to-face project induction this past quarter. <u>Previous Quarter (March 2026)</u> All project workers cannot access site without completing the project induction. 100% of workforce actively working on I2S have completed the project induction which covers code of conduct, local community expectations and cultural awareness. To date 601 people have completed the online project orientation and 169 people have completed the face-to-face project induction.
Construction		100% of complaints relating to workforce behaviour are acknowledged within 24 hours.		Quarterly	<u>Current Quarter (June 2026)</u> 7 were made complaints in Q2 2026. These complaints were made in relation to Driver or Worker behaviour. With an additional complaint associated with location of works. Each complaint was responded to within 24 hours of the complaints being made. <u>Previous Quarter (March 2026)</u> 3 complaints made in Q1 2026. Contact was made to each community member within 2 hours of the complaints being made.

Pre-Construction / Construction		Quarterly consultations are held with councils, local police and LALCs that provide a regular forum to identify any community concerns.		Quarterly	<u>Current Quarter (June 2026)</u> Community staff met with Cootamundra Local police to provide a project update. A workshop with Local Wiradjuri community members including the Young and Wagga Wagga LALC was held in April. This workshop discussed the development of the Heritage Interpretation Plan (HIP). <u>Previous Quarter (March 2026)</u> Community staff met with Cootamundra Local police and Inland Rail to provide a project update. A workshop with Local Wiradjuri community members including the Young and Wagga Wagga LALC is planned in April. This workshop is for the development of the Heritage Interpretation Plan (HIP).
Construction		Increase in aggregate measure obtained through community six monthly community perception survey.		Biannually	<u>Current Quarter (June 2026)</u> 0 complaints made in Q2 2026. <u>Previous Quarter (March 2026)</u> 3 complaints made in Q1 2026. Contact was made to community member within 2 hours of complaint being made.
Pre-Construction / Construction		Workforce projections updated at least quarterly and shared with councils in line with engagement schedule.		Quarterly	<u>Current Quarter (June 2026)</u> No workforce projections shared in Q2 as the majority of works have been subcontracted out. The current camp occupancy rate is sitting at 201. <u>Previous Quarter (March 2026)</u>

					No workforce projections shared in Q1 2026 as the workforce histogram is being worked through and the project continues to work through construction approvals.

All short-term accommodation bookings have been welcomed by local providers with positive feedback on the bookings.

3.4 Community Health and Wellbeing

PROJECT PHASE	DESIRED OUTCOME	INDICATORS AND TARGETS	METHOD	REPORTING FREQUENCY	UPDATE AS PER 30 June 2026
Pre-Construction / Construction	Amenity impacts are minimised through monitoring, engagement and continuous improvement initiatives. Landowners are aware of the proposal schedule and supported to manage impacts.	100% of directly affected landowners have a dedicated liaison officer assigned and active throughout construction.	Data: Complaints, landscaping/amenity reports, engagement data. Source: Complaints log, community engagement logs	Biannually	Achieved. 100% of directly affected landowners have a dedicated liaison officer assigned who have been active throughout construction to date.
Pre-Construction / Construction	Protection and promotion of cultural identity, Aboriginal heritage values, and community connection to place.	100% of complaints relating to noise, dust or vibration are responded within 24 hours and tracked to closure.		Monthly	<u>Current Quarter (June 2026)</u> 0 complaints received relating to noise, dust or vibration. <u>Previous Quarter (March 2025)</u> 0 complaints received relating to noise, dust or vibration.
Pre-Construction / Construction		Minimum of 2 community volunteering or beautification initiatives delivered during the construction phase.		Biannually	<u>Current Quarter (June 2026)</u> John Holland has grown volunteer numbers with Meals on Wheels to 15 from the last quarter and actively continue to contribute to local meal deliveries. John Holland volunteered to cook and serve at the AECG barbeque hosted by Cootamundra High School <u>Previous Quarter (March 2026)</u> - John Holland started volunteering with Meals on Wheels which will continue into Q2. - JH staff volunteered time and held a clean-up of Muttama creek

					- JH provided services to the Cootamundra Beach Volleyball event
Pre-Construction / Construction		At least one visual/landscape enhancement initiative developed with input from local Aboriginal representatives or councils.		Biannually	<u>Current Quarter (June 2026)</u> John Holland is planning for initiatives developed through consultation with Aboriginal representatives for the Cultural Values visual/ landscape enhancement plan. The Heritage Interpretation Plan specific to ISC requirements will include community consultation including potential visual/ landscape enhancement initiatives. <u>Previous Quarter (March 2026)</u> Through consultation with Aboriginal representatives for the Cultural Values Plan visual/ landscape enhancement initiatives are being reviewed with LALCs. The Heritage Interpretation Plan specific to ISC requirements will include community consultation including potential visual/ landscape enhancement initiatives.
Pre-Construction / Construction		Construction noise, vibration and air quality impacts remain within the limits outlined in the CEMP subplans.		Monthly	<u>Current Quarter (June 2026)</u> 0 complaints were received relating to noise, vibration and air quality impacts. <u>Previous Quarter (March 2026)</u> 0 complaints were received relating to noise, vibration and air quality impacts.

Construction	Avoidance of any potential negative impacts on the local and regional social localities, including service providers.	First aid responder rostered during camp operations.	Data: operational status of facilities, usage rates of facilities, satisfaction levels of workers, contractor records, meeting records. Source: incident management logs, site audits / checklists, workers surveys of feedback mechanisms (complaints log, exist surveys, toolbox talk notes etc.), meeting minutes; engagement logs; correspondence records.	Quarterly	<u>Current Quarter (June 2026)</u> It has been established that paramedic supports were not required for the servicing of camp operations. Instead, the Safety team have a qualified Registered Nurse onsite along with Sirrom camp attendees who are all First Aid qualified. <u>Previous Quarter (March 2026)</u> Through recent RFI's it has been established that paramedic supports were not required for the servicing of camp operations. Instead, the Safety team have a qualified Registered Nurse onsite along with Sirrom camp attendees who are all First Aid qualified. Workforce camp operator, Sirrom, manages an incident log and ensures any incidents are followed up, closed out and recorded. I2S have access to the log if and when required. Camp information is provided to every new staff member who attends the Project induction, attendance is registered.
Construction		Align Telehealth and mental health resources available 100% of the time.		Quarterly	<u>Current Quarter (June 2026)</u> No change from previous quarter <u>Previous Quarter (March 2026)</u> Information for Employee Assistance Program and mental health services available on site and camp facilities. The information is also made available at all Pre-Start locations. Workforce camp operator, Sirrom, Manages an incident log and ensures any

					incidents are followed up, closed out and recorded. I2S have access to the log if and when required. In 2026, the I2S Project provided a digital feedback form to employees to provide suggestions/Improvement ideas. All feedback is considered and sent to the Village managers where applicable for consideration. Camp information is provided to every new staff member who attends the Project induction, attendance is registered
Construction		100% of advertised onsite amenities operational during construction. Mental health support information displayed in 100% of key communal areas (e.g. mess hall, accommodation block).		Quarterly	Information for Employee Assistance Program and mental health services available on site and camp facilities.
Construction		80% of surveyed workers report satisfaction with recreational and dining facilities.		Biannually	<u>Current Quarter (June 2026)</u> Workers residing at the accommodation facility are able to provide their feedback on camp facilities. 0 complaints from workers about the facilities. <u>Previous Quarter (March 2026)</u> A worker survey for camp facilities will be conducted in 2026.

Construction		Camp operation and demobilisation discussed with local council at least twice during construction.		Annually	<u>Current Quarter (June 2026)</u> No meetings to discuss camp operations this quarter. <u>Previous Quarter (March 2026)</u> Meetings were held with fire services and council to discuss the camp construction, operation and associated management plans. A tour of the I2S workforce camp was conducted with Cootamundra Council members.
Construction	The level of mobility for the community is not negatively affected.	100 % workers have completed driver induction and Code of Conduct training.	Data: Total number of workers inducted, number and percentage who completed, Code of Conduct and driver safety components, dates of induction completion. Source: Induction completion logs, Toolbox talk attendance sheets and topic records, complaints register, Traffic incident or near miss reports.	Monthly	<u>Current Quarter (June 2026)</u> 100% of workforce actively working on I2S have completed the project induction which covers code of conduct, local community expectations and cultural awareness. 12 project workers have completed Safe Driving Awareness training which continues to be rolled out across the project. Safe driving is regularly raised in the projects fortnightly toolbox talks. <u>Previous Quarter (March 2026)</u> 100% of workforce actively working on I2S have completed the project induction which covers code of conduct, local community expectations and cultural awareness. 88 project workers have completed Safe Driving Awareness training which continues to be rolled out across the project. Safe driving is regularly raised in the projects fortnightly toolbox talks.

Construction		1 refresher or toolbox talks delivered on driver behaviour and local road safety every quarter during construction.		Quarterly	<u>Current Quarter (June 2026)</u> Daily bulletin updates on driver behaviour are provided at fortnightly throughout the reporting period. Toolbox talks were utilised to bring attention to complaints raised in relation to driver behaviour twice in the reporting period. <u>Previous Quarter (March 2026)</u> During February, John Holland communicated in a toolbox talk a change to the Vehicle Management Plan which included removing Black Gate Road as it was deemed a dangerous road to travel on, this was also decided through consultation and advice from the local community living on this road.
Construction		0 reported driving complaints involving project workers.		Quarterly	<u>Current Quarter (June 2026)</u> 7 driving complaints received and responded to within 2 hours. <u>Previous Quarter (March 2026)</u> 1 driving complaints received and responded to within 2 hours.
Preconstruction / Construction	The community is educated and actively implementing rail safety practices. The level of access for emergency services is not negatively affected by the proposal.	Plan is approved and implemented prior to construction; referenced in all traffic changes.	Data: Number of road closures notified, meetings held with emergency services, rail safety campaigns delivered, workforce accommodation compliance records,	Quarterly	<u>Current Quarter (June 2026)</u> 0 Road closures. Emergency Services will have access regardless of closures. <u>Previous Quarter (March 2026)</u> 0 Road closures. Emergency Services will have access regardless of closures.
Construction		100% of road closures or access	feedback from community and	Monthly	<u>Current Quarter (June 2026)</u>

	The level of mobility for the community is not negatively affected.	changes notified to emergency service providers, schools and school bus operators at least 7 days in advance.	service providers regarding telecommunications reliability and capacity during.		0 Road closures. Emergency Services will have access regardless of closures. Bus companies are on the I2S distribution list and receive notifications. <u>Previous Quarter (March 2026)</u> 0 Road closures. Emergency Services will have access regardless of closures. Bus companies are on the I2S distribution list and receive notifications.
Construction		Quarterly meetings held with REMC, LEMC, and local emergency services to coordinate access and workforce accommodation response protocols.	Source: Traffic Management Plan implementation records, REMC/ LEMC engagement logs, safety campaign reports, workforce accommodation supervision and compliance logs.	Quarterly during construction	<u>Current Quarter (June 2026)</u> 0 Road closures and 0 concerns raised regarding access, therefore no meetings required to discuss workforce response protocols. Community team hosted Drop-in session to provide information on Dirnaseer road closure programmed to being early August weather dependant. <u>Previous Quarter (March 2026)</u> 0 Road closures and 0 concerns raised regarding access.
Construction		Emergency services included in quarterly meetings and as-needed briefings		Quarterly	<u>Current Quarter (June 2026)</u> 0 Road closures and 0 concerns raised regarding access. <u>Previous Quarter (March 2026)</u>

					0 Road closures and 0 concerns raised regarding access.
Construction		Protocols documented in the CTTAMP and included in emergency service briefings.		Quarterly	Achieved. The CTTAMP includes protocols around emergency service access. Stakeholders and consideration of the interaction with emergency services are captured in the following areas of the CTTAMP: ▪ S5.2.4 Temp road closures ▪ S9.3 Traffic Management Risk Workshop
Construction		100% of workforce accommodation occupants sign the Code of Conduct and are subject to the policy.		Monthly	<u>Current Quarter (June 2026)</u> All workers utilising the camp facility must acknowledge and sign the camp rules prior to first check in. 100% of the workforce have completed the site induction, outlining the organisations Code of Conduct. <u>Previous Quarter (March 2025)</u> All workers utilising the camp facility must acknowledge and sign the camp rules prior to first check in. 100% of the workforce have completed the site induction, outlining the organisations Code of Conduct.
Construction		24/7 camp supervision		Quarterly	24/7 camp supervision is in place and will continue to throughout camp operations.

		maintained throughout construction			
Construction		Meeting held with telcos or service providers regarding capacity during peak construction.		Quarterly	The I2S camp, office and site offices have set up a Star Link system which mitigates reception consumption. The I2S project are notified of network disruptions and upgrades. Telstra have upgraded their network from 4G to 5G which should support greater mobile network in the local area.
Construction		Two community rail safety campaigns delivered per year during construction in partnership with local schools or councils.		Annually	<u>Current Quarter (June 2026)</u> - Rail R U OK? Day - April Proposed events to run campaigns: - Rail Safety Week - August <u>Previous Quarter (March 2025)</u> Safety messaging around being safe in construction with an activity on PPE and Getting Ready for Work. Delivered to Cootamundra Preschool and Elouera Special School. No campaigns delivered in Q1 2026.
Construction	ARTC's level of social license to operate is consistently positive. Funding and successful collaboration/programs established between local mental health services and ARTC.	100% of residents and stakeholders directly adjacent to or likely to be impacted by construction activities receive timely works notifications, with a minimum of 7 days' notice. Notification areas defined by	Data: Landowner dedicated community and stakeholder engagement team assignments, mental health service partnerships, works notification delivery, engagement,	Monthly	<u>Current Quarter (June 2026)</u> 3 work notifications were sent to the I2S Community Distribution List including stakeholders directly adjacent to or likely to be impacted by construction activities. These were sent with a minimum of 7 days' notice. <u>Previous Quarter (March 2026)</u> 3 work notifications were sent to the I2S Community Distribution List including stakeholders directly adjacent to or likely to

	Landowners are aware of the proposal schedule and supported to manage impacts. Landowners feel confident and have trust in the relationship between themselves and their liaison officer. The distributive equity of impacts for vulnerable groups is managed and monitored appropriately by the liaison officer. Best efforts are made to avoid or minimise any activities causing adverse stress and anxiety for the community including affected landowners.	scale and nature of works. Landowner-reported satisfaction with project communication and engagement during construction measured through: Targeted questions in biannual perception surveys. Qualitative feedback and engagement records. ≥70% of landowners agree they feel informed and supported. Positive sentiment increases across reporting periods.	wellbeing feedback records, Survey responses. Source: Landholder engagement records, agreements with mental health services, communications logs, stakeholder support records, perception survey.		be impacted by construction activities. These were sent with a minimum of 7 days' notice. Positive feedback has been received from landowners regarding satisfaction with project communication and engagement.
Construction		Vulnerable residents receive tailored engagement and support throughout construction, evidenced through contact logs and case tracking.		Quarterly	<u>Current Quarter (June 2026)</u> Vulnerable residents have been identified and receive tailored engagement and support throughout construction. <u>Previous Quarter (March 2026)</u>

					Vulnerable residents have been identified and receive tailored engagement and support throughout construction.
Construction		At least one formal partnership with a local mental health service is established during construction (e.g. Murrumbidgee Primary Health Network), with services promoted in community materials.		Biannually	<u>Current Quarter (June 2026)</u> Achieved. Inland Rail has had a partnership with the Murrumbidgee PHN since 2022 to support mental health clinical provision, but to also access data identifying trends in mental health support. This partnership will continue until the completion of the project.
Construction		100% of directly affected landowners have a dedicated liaison officer assigned and active throughout construction.		Biannually	Achieved. 100% of directly affected landowners have a dedicated liaison officer assigned who have been active throughout construction to date.
Construction	Protection and promotion of cultural identity, heritage values and connection to place, including Aboriginal cultural heritage and rural character.	100% of identified Aboriginal heritage sites avoided or protected unless agreed otherwise	Data: Cultural consultation records, site protection audits. Source: Construction Heritage Management Plan, community consultation logs.	Biannually	<u>Current Quarter (June 2026)</u> All known cultural heritage sites are identified on project maps and protected as no-go zones. <u>Previous Quarter (March 2025)</u> All known cultural heritage sites are identified on project maps and protected as no-go zones. Artefacts have been removed from Zones 1 and 2 and the Project team has been issued with a clearance certificate from the

					archaeologist and agreed with by the LALCs for each area
Pre-Construction / Construction		Minimum of 2 consultation sessions with local Aboriginal stakeholders per project phase (e.g. design, pre-construction, construction).		Quarterly	<u>Current Quarter (June 2026)</u> 1 consultation session during Q2. Inland Rail had a stakeholder meeting with Young LALC in June. Inland Rail provided a brief project update and ACVP commitments and discussed possible First Nations business opportunities. <u>Previous Quarter (March 2026)</u> Cultural Values Plan Consultation conducted: - May 2025, Cootamundra Aboriginal Working Party - May 2025, Young LALC Wiradjuri Language incorporated in naming places around the camp and offices August 2025 Consultation with Peter Beath (RAP and Cootamundra Aboriginal Working Party)
Pre-Construction / Construction		At least one cultural design or storytelling feature incorporated, subject to consultation outcomes.		Quarterly	<u>Current Quarter (June 2026)</u> The Aboriginal Cultural Values Plan has been endorsed and planning is underway for a cultural design or storytelling feature. Design elements are being progressed and developed as per the ACVP. <u>Previous Quarter (March 2026)</u> Cultural Values Plan Consultation conducted: May 2025, Cootamundra Aboriginal Working Party

					May 2025, Young LALC The Aboriginal Cultural Values Plan is currently being reviewed and updated for submission.
Pre-Construction / Construction	Minimised disruption to agricultural operations and supports continuity of rural livelihoods throughout construction and operation.	100% of directly affected agricultural operators receive an approved PMP prior to the commencement of construction on their property.	Data: Access agreements, agricultural complaints. Source: Landholder engagement logs, grievance register.	Biannually	100% of agricultural operators have individual PMP's in place.
Pre-Construction / Construction		100% of construction access arrangements agreed prior to access, and no unnotified access events recorded.		Biannually	<u>Current Quarter (June 2026)</u> 100% of construction access arrangements have been agreed. In Q2 2026, 0 unnotified access events were recorded. <u>Previous Quarter (March 2026)</u> 100% of construction access arrangements have been agreed. In Q1 2026, 0 unnotified access events were recorded.

3.5 Community and Stakeholder Engagement

PROJECT PHASE	DESIRED OUTCOME	INDICATORS AND TARGETS	METHOD	REPORTING FREQUENCY	UPDATE AS PER 30 JUN 2026
Pre-Construction / Construction	Landowners are aware of the proposal schedule and supported to manage impacts. The community is made aware of disruptions and able to manage impacts accordingly.	Communication Stakeholder Engagement Plan is finalised and consistent with CCS; key communication milestones delivered as scheduled.	Data: Complaints, engagement data. Source: Complaints log, Community engagement logs.	Biannually	Achieved. Communication Stakeholder Engagement Plan is finalised and consistent with CCS.
Pre-Construction / Construction	Landowners feel confident and have trust in the relationship between themselves and their liaison officer. Stakeholders and the community are engaged in an open and transparent process.	100% of directly affected landowners assigned a Communications & Stakeholder Engagement team and receive regular updates.		Biannually	Achieved. All directly affected landowners have been assigned a Communications & Stakeholder Engagement team and receive regular updates through email, phone calls and text message.
Pre-Construction / Construction	IRPL's level of social license to operate is consistently positive.	80% of complaints acknowledged within 24 hours and responded to within five business days.		Monthly	<u>Current Quarter (June-2026)</u> 7 complaints were made and acknowledged within 2hrs. <u>Previous Quarter (March 2025)</u> 3 complaints were made and acknowledged within 2hrs.
Pre-Construction / Construction		Biannual review of engagement effectiveness via feedback logs or stakeholder surveys.		Biannually	<u>Current Quarter (June 2026)</u> 100% of respondents to the Community Centre survey felt well informed of the Project's progress.

Revision No: 0

Issue Date: 24/07/2026

IRPL Document Number: 6-0019-220-ESP-00-RP-0003

When printed this document is an uncontrolled version and must be checked against the Aconex electronic version for validity

					<u>Previous Quarter (March 2026)</u> No survey conducted. Feedback received has been positive.
Construction		At least 70% of respondents in the six-monthly community feedback survey agree that they know which Inland Rail project section affects them and who to contact.		Biannually	<u>Current Quarter (June 2026)</u> As per of the Community Centre survey, 100% of respondents indicated they were aware of who to contact. <u>Previous Quarter (March 2025)</u> No survey conducted.
Preconstruction / Construction		All stakeholders receive minimum 7 days' notice prior to any major construction activity affecting access, amenity, or property.		Monthly	<u>Current Quarter (June 2026)</u> 3 work notifications were sent to the I2S Community Distribution List including stakeholders directly adjacent to or likely to be impacted by construction activities. These were sent with a minimum of 7 days' notice. <u>Previous Quarter (March 2025)</u> 3 work notifications were sent to the I2S Community Distribution List including stakeholders directly adjacent to or likely to be impacted by construction activities. These were sent with a minimum of 7 days' notice.

Construction	The distributive equity of impacts for vulnerable groups is managed and monitored appropriately by the liaison officer. Funding and successful collaboration/programs established between local mental health services and IRPL.	100% of directly affected landowners are supported by a dedicated community and stakeholder engagement team member throughout pre-construction and construction.	Data: Meeting minutes, feedback logs. Source: Engagement records and CCC feedback. Source: Complaints log, community engagement logs.	Biannually (construction and first 12 months of operations)	Achieved. 100% of directly affected landowners have a dedicated liaison officer assigned who have been active throughout construction to date.
Construction	Landowners are aware of the proposal schedule and supported to manage impacts. Landowners feel confident and have trust in the relationship between themselves and their liaison officer. Best efforts are made to avoid or minimise any activities causing adverse stress and anxiety for the community including affected landowners.	All community and stakeholder engagement team members for John Holland receive basic mental health awareness training, and escalation protocols are in place for stakeholders experiencing high distress.		Monthly	<u>Current Quarter (June 2026)</u> 100% of the John Holland community and stakeholder engagement team have completed Black Dog Mental health Training. In addition to the above, 25% of the team have completed Mental Health First Aid training with a further 50% booked in for training in Q3 and Q4. <u>Previous Quarter (March 2026)</u> 50% of the John Holland community and stakeholder engagement team have completed Black Dog Mental health Training. Training for rest of John Holland community and stakeholder engagement team members will commence in 2026. Community and stakeholder engagement team meetings include a mental health check.

Construction		Evidence of cross-project coordination (e.g. shared briefing notes, joint planning meetings, no stakeholder confusion complaints, etc.)		Monthly	<u>Current Quarter (June 2026)</u> Cross-project coordination is evidenced in Consultation Manager and have included jobseeker queries. Representatives from John Holland and Martinus carried out cross project coordination and communication with respect to cumulative impacts where I2S CSR interface crosses into A2I sections in the Illabo area. <u>Previous Quarter (March 2026)</u> No cross-project coordination activities in Q1 2026.
Construction		70% of directly affected landowners report they understand the post-construction responsibilities and who to contact. ≤10% report concerns about unresolved long-term issues or confusion about ARTC's ongoing role.		Monthly	<u>Current Quarter (June 2026)</u> 100% of landowners access agreements contain contact information and responsibilities of both parties. As construction activities change, agreement continually is amended with landowners engaged. <u>Previous Quarter (March 2026)</u> 100% of landowners access agreements contain contact information and responsibilities of both parties. As construction activities change, agreement continually is amended with landowners engaged.

3.6 Cumulative Impacts

SOCIAL IMPACT AREA	PROJECT PHASE	DESIRED OUTCOME	INDICATORS AND TARGETS	METHOD	REPORTING FREQUENCY	UPDATE AS PER 30 JUN 2026
Workforce Management	Construction	Demand for existing social and community infrastructure and services is monitored. Employment opportunities are available to people of under-represented or vulnerable backgrounds, including Indigenous people, women, under 25's and the unemployed. The distributive equity of impacts for vulnerable groups is managed and monitored appropriately by the liaison officer.	100% of workers inducted on behavioural standards before site access.	Data: Workforce participation demographics, induction records and incident tracking, community services demand monitoring, workforce behavioral complaints, Health and Wellbeing Sub Plan implementation records and participation tracking from toolbox sessions. Source: Workforce records, induction logs, council/service provider engagement logs, complaints register.	Biannually	<u>Current Quarter (June 2026)</u> 100% of workforce actively working on I2S have completed the project induction which covers Code of Conduct, local community expectations and Cultural Awareness. <u>Previous Quarter (March 2026)</u> All project workers cannot access site without completing the project induction. 100% of workforce actively working on I2S have completed the project induction which covers code of conduct, local community expectations and cultural awareness. To date 601 people have completed the online project orientation and 169 people have completed the face-to-face project induction.
		The proposal seeks to avoid any potential negative impacts on the local and regional social localities, including service providers.				Information for Employee Assistance Program and mental health services available on site and camp facilities. Landowners have access to mental health assistance through

Revision No: 0

IRPL Document Number: 6-0019-220-ESP-00-RP-0003

When printed this document is an uncontrolled version and must be checked against the Aconex electronic version for validity

					public programs developed by the Murrumbidgee PHN, along with services provided by Beyond Blue. Landowners also have access to private mental health support, provided by Inland Rail's provider Converge International.
Workforce Management	Construction		15% of total cumulative workforce should comprise of a Project Area workforce including the targeted social benefit demographics of the following: ▪ local and regional employees ▪ Indigenous people ▪ Women ▪ under 25 years of age ▪ apprenticeship/traineeship positions.	Biannually	<u>Current Quarter (June 2026)</u> 8.97% of the Workforce are Project Area Residents <u>Previous Quarter (March 2026)</u> 9.09% of the Workforce are Project Area Residents
Workforce Management	Construction		Quarterly coordination meetings held across each LGA in the Project Area.	Quarterly	<u>Current Quarter (June 2026)</u> Contact details were shared with all services so they can reach out with concerns. John Holland met with local police, emergency services including RFS and NSW ambulance. John Holland and

						Inland Rail meet monthly with Junee and Cootamundra councils. <u>Previous Quarter (March 2025)</u> Contact details were shared with all services so they can reach out with concerns. John Holland met with local police, emergency services including RFS and NSW ambulance. John Holland and Inland Rail meet monthly with Junee and Cootamundra councils.
Workforce Management	Construction		All behavioural complaints logged and responded to within 5 business days.		Biannually	<u>Current Quarter (June 2026)</u> In Q2 2026, 4 driving complaints received and responded to within 2 hours. I2S has a register in place to monitor, track and report on emerging social issues and complaints. <u>Previous Quarter (March 2026)</u> In Q1 2026, 1 driving complaint received and responded to within 2 hours. I2S has a register in place to monitor, track and report on emerging social issues and complaints.

Workforce Management	Construction		Quarterly coordination meetings held with Inland Rail, Regional Development Australia, and neighbouring proponents (where applicable).		Quarterly	All I2S workforce will be accommodated in Camp facility which minimises impacts to accommodation. As a result of workers accommodated in the Camp facility is that there is a minimal need to coordinate with other projects to manage
Community and Stakeholder Engagement	Post-Construction / Operations	ARTC's level of social license to operate is consistently positive. Funding and successful collaboration/programs established between local mental health services and ARTC. The proposal makes best efforts to avoid or minimise any activities causing adverse stress and anxiety for the community, including affected landowners. The proposal minimises disruption to agricultural operations and supports continuity of rural livelihoods throughout construction and operation.	100% of directly affected landowners assigned a dedicated stakeholder engagement team. ≥70% of residents and stakeholders surveyed report feeling that cumulative project impacts are being adequately managed. ≤10% report confusion or stress related to overlapping project activities.	Data: Landowner liaison records, surveys, complaint acknowledgements and resolution rates, mental health training records, partnership activity with mental health services, Assignment and activity recorded in Consultation Manager. Source: Landowner engagement logs, complaints and resolution register, staff	Biannually	Achieved. 100% of directly affected landowners have a dedicated liaison officer assigned who have been active throughout construction to date. <u>Current Quarter (June 2026)</u> In Q2 2026, no survey conducted. Feedback received from other sources has been positive. <u>Previous Quarter (March 2026)</u> In Q1 2026, no survey conducted.

Community and Stakeholder Engagement	Post-Construction / Operations		100% of directly affected landowners have an active, dedicated stakeholder engagement team at all times.	training logs, partnership agreements, perception survey.	Biannually	Achieved. 100% of directly affected landowners have a dedicated liaison officer assigned who have been active throughout construction to date.
Community and Stakeholder Engagement	Post-Construction / Operations		Minimum 5 days' notice before any planned maintenance work that may affect access, amenity, or noise levels.		Biannually	<u>Current Quarter (June 2026)</u> 3 work notifications were sent to the I2S Community Distribution List including stakeholders directly adjacent to or likely to be impacted by construction activities. These were sent with a minimum of 7 days' notice. <u>Previous Quarter (March 2026)</u> 3 work notifications were sent to the I2S Community Distribution List. These were sent with a minimum of 7 days' notice.
Community and Stakeholder Engagement	Post-Construction / Operations		Visual mitigation measures are documented and, where appropriate, implemented in response to landowner concerns.		Biannually	Visual screening was discussed with landowners around the camp; landowners declined the screening.
Community Health and Wellbeing	Construction		At least one formal partnership with a local mental health service is established for construction (e.g. Murrumbidgee		Biannually	Achieved. Inland Rail has had a partnership with the Murrumbidgee PHN since 2022 to support mental health clinical provision, but to

			Primary Health Network).			also access data identifying trends in mental health support.
Community and Stakeholder Engagement	Operations		100% of community liaison officers trained prior to start of operational engagement phase.		Quarterly	Achieved. 100% of John Holland I2S community liaison officers were trained prior to start of operational engagement phase.

3.7 Adaptive Management Measures Implemented

No adaptive measures applied this quarter.

4 Community Engagement Activities

4.1 Engagement Undertaken This Quarter

During April, there were a total of 151 interactions between John Holland and the community. The top 5 event types were phone call out, email out, phone call in, email in and face-to-face contact. The top issues discussed were consultation process, social benefit, property access, surveys and general property impacts.

Table 3: Highlights and Key activities – April

No	Item
1	May community works notifications approved by IRPL covering upcoming construction activities and impacts and distributed to the community on Thursday 23 April 2026.
2	Monthly photography including timelapse camera and 360 degree photo set up as outlined in agreed timelapse proposal
3	Visit to Eloura Association to discuss opportunities for students

During May, there were a total of 202 interactions between John Holland and the community. The number of interactions has been increasing as the team undertake consultation with landowners as construction activities increase. The top 5 event types were phone call out, email out, phone call in, email in and meetings. The top issues discussed were general property impacts, consultation process, construction noise, social benefit, project progress/status.

Table 4: Highlights and Key activities – May

No	Item
1	June community works notifications approved by IRPL covering upcoming construction activities and impacts and distributed to the community on Friday 22 May2026.
2	Commence consultation for negotiated agreements with landowners seeking acceptance to work every Sunday when required.
3	Attended a community event – Muttama 140-year Railway celebration to promote the project and provide information relating to work opportunities and construction progress.

During the reporting period, there were a total of 176 interactions between John Holland and the community. The number of interactions has been increasing as the team undertakes consultations with landowners in response to growing construction activities. The most common types of interactions included outbound phone calls, outbound emails, incoming phone calls, incoming emails, and face-to-face meetings.

The main issues discussed during these interactions focused on the consultation process, social impact, noise concerns (including general and construction-specific noise), and general property impacts. These discussions reflect the ongoing engagement with the community regarding the community agreement.

Table 5: Highlights and Key activities – June

No	Item
1	July community works notifications approved by IRPL covering upcoming construction activities and impacts and distributed to the community on Tuesday 23 June 2026.
2	Successfully secured a community agreement from most landowners to undertake additional work on Sundays

3	Developed and commenced roll out of the communication strategy the Project's drilling and blasting program
4	Successfully delivered an introduction to STEM in construction school visits to Illabo and Stockinbingal Public Schools.

4.2 Stakeholder Feedback and Key Themes

During the reporting period, the team addressed several key topics and issues, including property access arrangements, property impacts, project updates, and employment opportunities. A particular focus was placed on engaging with landowners impacted by the blasting program, supported by the development of a detailed factsheet and tailored communication to ensure a "no surprises" approach to the construction process.

The team also remained committed to community integration through volunteering efforts, active participation in local community groups, and presentations at local schools.

The current construction phase—encompassing utilities relocation works, earthworks, drainage works, culvert installation, piling and bridge abutment construction—necessitated regular interactions with landowners to discuss project impacts and collaboratively address any concerns. Maintaining strong relationships with both landowners and the wider community remained a key priority, with an emphasis on open communication and the prompt resolution of issues.

Stakeholder engagement was conducted through a variety of channels, with the top five interaction methods being phone call out (188 occurrences), email out (155 occurrences), face-to-face contact (26 occurrences), phone call in (54 occurrences), and email in (43 occurrences). These methods contributed to a total of 543 engagements during the period.

The top five issues raised by stakeholders included the consultation process, social benefit, general property impacts, and project progress or status updates, noise (as a result of discussing the blasting methodology). These issues provided valuable insights into stakeholder priorities and concerns, guiding communication and engagement efforts.

Eight complaints were received during this period, all of which were resolved within the required timeframes. There were no repeat complaints, indicating stakeholder satisfaction with the resolutions provided.

4.3 Planned Engagement for Next Quarter

Table 6: Planned Engagement for Next Quarter

No	Activity	Date
1	Community Drop-in Session – Stockinbingal	
2	Community Drop-in Session – Illabo	21 July
3	Community doorknock – Stockinbingal	24-31 July
4	Eloura Special School site visit to Dirnaseer	29 July
5	Rail Safety Week – High School visits	August
6	Term 3 Bridge Building STEM School activity – Illabo and Stockinbingal	August and September
	Stop n Mingle at Stockinbingal – August and September	August and September

5 Complaints Received and Responses

5.1 4.1 Summary of Complaints

See Appendix A

5.2 4.2 Complaint Trends and Analysis

No trends compared to previous quarters to report on.

5.3 4.3 Actions Taken and Outcomes

											resulted in road degradation, a dust hazard and decreased visibility for residents and pedestrians.				an email sent to relevant JH Managers to advise of complaint. 20/04/2026 EB phoned the stakeholder to advise resolution and ongoing commitment to work with CGRC about the matters raised.		
1 5	23-Apr-26	11:13 am	Phone call in	15	8691	Unavoidable	Stockinbingal	Stated JH was working in the wrong area	Claimed JH working out of allowed area	1	Landowner concerned that JH was working out of the alignment. he stated trees had been cleared and the fencing had been damaged	23/4/26 11.13am Landowner called JW to complain about the fence being damaged. 23/4/26 12:14pm JW advised landowner that SPE would be on site by 12:30pm to discuss the issues and confirm the details of rectification work. The complainant advised they expect to have 500metres of new fencing not just to repair the damaged area.	23/4/26 13:20pm SPE (FS) met with landowner to discuss the work, define the area and confirm that works were being undertaken within the project boundaries and available lease areas. SPE noted that during tree trimming, 3 trees had landed within the landowner's property and confirmed these were removed by team. SPE apologised this had occurred. SPE confirmed JHG were repairing damaged fencing and would consider an extended length of fencing as requested. SPE advised this was not confirmed and would need to be approved. SPE noted that JH would provide a response. Landowner was satisfied that works were being undertaken in the correct location, and not within private property. Landowner was satisfied that JH will consider request for additional fencing. 24/4/26 - JH Comms team to address	Phone calls	11:34am - call in from landowner, 11.44am follow up call from landowner, 12:13pm Phone call out to advise meeting on site, 12.30pm Meeting on site with JH SPE.
