Out-of-hours construction

Key dates and times

- 2 August – Sunday 8am – 10pm
- 3 August – Monday 6pm until Tuesday 7am
- 16 August – Sunday 8am – 10pm
- 17 August – Monday 6pm until Tuesday 7am
- 23 August – Sunday 8am – 10pm
- 24 August – Monday 6pm until Tuesday 7am
- 4 September – Friday 6pm until Saturday 7am
- 5 September – Saturday 6pm – 8am Sunday
- 6 September – Sunday 8am – 10pm
- 7 September – Monday 6pm until Tuesday 7am

Upcoming Track Possession

Our next track possession will be over:

- **11 September until 16 September 2026**

More information on this will be released soon

Standard construction hours:

7am to 6pm Monday to Saturday (subject to track availability).

Construction activities:

- Track works
- Asbestos removal may be necessary. Where identified, removals will be carried out by a licensed contractor with SafeWork NSW regulations and industry best practices. Strict safety measures will be in place to ensure there is no risk to community or the environment.
- Track underbores for service installation and investigation
- Vegetation clearing and tree trimming
- Material transportation between site compounds
- Site compound operation (Illabo and Marina)
- Geotechnical and utility investigations
- Culvert construction and drainage works
- Signalling activities along the Junee to Illabo alignment, including CSR installation and cable installation to facilitate signalling equipment relocation.
- Lighting towers and generators will be used during out-of-hours construction periods

- Traffic control will be in place as needed
- Early road works for level crossing upgrades

How we're managing impacts

- Works programmed to best minimise noise impacts.
- Use of low-tonal reversing alarms on all plant and equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours.
- Water carts onsite to assist with dust suppression and fire risks.
- Onsite noise monitoring to be conducted to ensure compliance

Temporary traffic changes near you

- During construction, vehicle movements will be to and from site, as well as on site.
- Traffic management will be in place to safely direct traffic as needed
- Road closures for level crossing prep works

What can I expect

Unfortunately, some construction activities are inherently noisy which cannot be avoided.

Properties near these areas can expect to hear:

- Excavation activities involving the removal of existing surfaces such as rock, soil, bridge segments, bridge abutments, existing roads and transportation of materials
- Heavy vehicle movements, geotechnical investigations and pavement coring.
- Loading, unloading and moving equipment including cranes and materials
- Construction machinery and equipment operation

Equipment list

Backhoe, ballast equipment, compactor, compressor, concrete agitator truck, elevated work platforms, excavators, front end loader, generator, grinders, hand tools, hi-rail equipment, hydraulic tools, jumping jack, lighting towers, mobile cranes, plate compactor, positrack, rail saw, road sweeper, rollers, telescopic handler, truck & dogs, light and medium rigid vehicles, vacuum trucks, watercarts.
