

Monthly update June to Illabo September 2026

Our contractor Martinus is continuing construction works between Junee and Illabo during the month of September.

Junee to Illabo

Out-of-hours construction

Track works:

- 4 September – Friday 6pm until Saturday 7am
- 5 September – Saturday 6pm – 8am
- 6 September – Sunday 8am – 10pm
- 7 September – Monday 6pm until Tuesday 7am

Track Possession

Martinus will carry out track and associated works within the rail corridor, between Junee and Illabo during an extended track possession.

Out-of-hours construction will commence at **6pm on Friday 11 September 2026 and will conclude at 7am Wednesday 16 September 2026.**

Vehicle Detours

To facilitate level crossing works, Brabins Road level crossing will be closed between:

- 6pm Friday 11 September until 6am Monday 14 September.
- 6pm Monday 14 September until 6am Tuesday 15 September
- 6pm Tuesday 15 September until 6am Wednesday 16 September
- **Detour route** will be via Brabins Rd, Eurongilly Rd, Allawah Rd and Bethungra Rd.

Track Possession activities:

- Site compound operation (Illabo and Marinna)
- Track works (tamping and ballasting)
- Level crossing works on Brabins Rd (Illabo)
- Geotechnical investigations
- Drainage, earthworks and culvert works
- Signalling works

How we're managing impacts

- Works programmed to best minimise noise impacts.
- Use of low-tonal reversing alarms on all plant and equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours.
- Water carts onsite to assist with dust suppression and fire risks.
- Onsite noise monitoring to be conducted to ensure compliance

Temporary traffic changes near you

- During construction, vehicle movements will be to and from site, as well as on site.
- Traffic management will be in place to safely direct traffic as needed

What can I expect

Unfortunately, some construction activities are inherently noisy which cannot be avoided. Properties near these areas can expect:

- Noise from excavation activities involving the removal of existing surfaces such as rock, soil, bridge segments, bridge abutments, existing roads and transportation of materials
- Heavy vehicle movements, geotechnical investigations and pavement coring.
- Loading, unloading and moving equipment including cranes and materials
- Construction machinery and equipment operation

Equipment list

Heavy machinery including but not limited to track machinery, elevated work platforms, excavators, front end loader, generators, hand tools, watercarts and lighting towers.
