# Construction Update
# Henty
# November 2026 to January 2027

Martinus will continue working at Henty from **Monday**, **2 November 2026** to **Saturday**, **30 January 2027**.

Work will take place during standard construction hours of **7am** to **6pm**, **Monday** to **Saturday**.

## Track Possession Work

Martinus will also undertake out-of-hours work during an extended track possession at Henty from **7am** on **Saturday**, **7 November** to **7am** on **Monday**, **9 November 2026**.

These works will be continuous, including some night work throughout this period.

Track possessions are critical to the project, as no trains will run during this period. This helps us complete our work faster and minimise ongoing disruption to the community.

Standard construction hours of **7am** to **6pm** **Monday** to **Saturday**, will commence following the track possession.

## Work being done

- Operating the temporary site compound
- Ground drilling for concrete piling and concrete pouring of foundations
- Drilling ground for concrete piling
- Excavating ground and track-related works
- Signalling testing and commissioning
- Environmental monitoring, survey and track inspections
- Removing the signalling gantry and installing a new gantry
- Delivering construction equipment and materials
- Removing materials and debris off-site.

## What can I expect?

- Heavy vehicles operating at the work site
- Reduced speed limit of 40km/h near the work area
- On-site traffic management, where required. Please follow all instructions and signage
- Nearby residents may experience some noise and vibration while we carry out the works.

## Machinery used

Equipment includes, but is not limited to, hand tools, survey equipment, semi-trucks, non-destructive digging (NDD) vacuum truck, drilling rig, excavators, skid steer, elevated work platforms (EWP), compactor plate, mobile crane, concrete truck, water cart, traffic management and survey equipment, heavy and light vehicles.

## How we're managing impacts

- Using water carts or other controls where needed to help manage dust
- Switching off equipment when not in use and using non-tonal reversing alarms where available
- Using traffic control, signage and barriers where required to support public and worker safety
- Monitoring the works to support compliance with project environmental requirements.

## Cancellation of works

Work may be cancelled at short notice due to weather and other factors. If this happens, we will reschedule the work and notify affected neighbours in advance.

For any complaints, feedback, or enquiries please get in touch with us at **1800 732 761** or **email** **inlandrailnsw@inlandrail.com.au**.
