

Out of Hours Work Uranquinty November 2026

Martinus will undertake out of hours work during the upcoming track possession at Uranquinty from **6pm on Friday, 6 November to 7am on Monday, 9 November 2026.**

These works will continue throughout this period, including night work.

Track possessions are critical to the project, as no trains will run during this period. This helps us complete our work faster and minimise ongoing disruption to the community.

Standard construction hours of **7am to 6pm, Monday to Saturday**, will commence following the track possession.

Work being done

- Operating the temporary site compound
- Excavating ground and track-related works
- Installing new signalling infrastructure at the Yarragundry Street level crossing
- Installing drainage and road infrastructure
- Asphaltting and line marking
- Environmental monitoring, survey and track inspections
- Delivering construction equipment and materials to the site
- Mechanised track surfacing, also known as tamping
- Removing materials and debris off-site.

What can I expect?

- **The Yarragundry Street level crossing will be temporarily closed from 6pm on Friday, 6 November to 5am on Monday, 9 November 2026**
- During the temporary road closure, the detour will follow the map overleaf. Traffic management

controls will be in place. Please allow extra travel time during this period and follow all traffic controller instructions and signage

- Access for pedestrians will be maintained during the temporary road closure
- Reduced speed limit to 40 km/h near the work area
- Heavy vehicles operating at the work site
- Nearby residents may experience some noise and vibration.

Machinery used

Equipment includes, but is not limited to, hand tools, survey equipment, mechanised tamper, grinders, saw cutters, semi-trucks and trailers, welding equipment, loaders, excavators, drum rollers, plate compactor, water carts, power washer, skid steers, lighting towers, generators, elevated work platforms (EWP), and heavy and light vehicles.

How we're managing impacts

- Using water carts or other controls where needed to help manage dust
- Switching off equipment when not in use and using non-tonal reversing alarms where available
- Using traffic control, signage and barriers where required to support public and worker safety
- Monitoring the works to support compliance with project environmental requirements.

Cancellation of works

Work may be cancelled at short notice due to weather and other factors. If this happens, we will reschedule the work and notify affected neighbours in advance.
