

Stockinbingal to Parkes Overhead Wiring Program October 2026 – April 2027

Martinus will commence works in the region to perform upgrades to existing overhead wiring infrastructure. Works will ensure there is enough clearance for double stacked trains to pass through freely underneath.

Works Planned

- Upgrades to existing powerline infrastructure in and around the rail corridor, which will include temporary disconnection and reconnection of power at each site.
- Replacement of power poles
- Restrunging of lines
- Surveys
- Vegetation trimming
- Excavation
- Installation of temporary fencing to establish an exclusion zone

Hours of Work

Monday to Saturday 7:00am until 6:00pm
Sunday 8:00am – 1:00pm

Machinery Used

Equipment used for work includes but is not limited to:

- Elevated work platform
- Mobile crane
- Lifter / Borer trucks
- Vacuum truck
- Light vehicles
- Water carts

What can I expect?

- **Properties may experience a power outage during these works; advance notice will be provided to affected properties by Essential Energy.**
- Movements of heavy vehicles and equipment
- Loading, unloading or moving equipment and materials

How we're managing impacts

- Traffic controls will be in place to assist motorists where required
- Water carts will be on-site to wet down areas to assist in managing dust.
- Works programmed to best minimise noise impacts.
- Use of non-tonal reversing alarms on all equipment and turning off equipment when not in use.
- Instructing workers to keep noise to a minimum and being respectful of our neighbours, including parking away from residences.
- Works will be monitored to ensure compliance with Project Approval and Heritage Approval Conditions.

Cancellation of works

Work may be cancelled at short notice due to weather and other factors. If this happens, work will be rescheduled and affected neighbours will be notified in advance.
