# Asbestos Removal
# Uranquinty
# November 2026

Martinus will remove asbestos containing material identified within a small, localised area of the former Uranquinty railway station.

Works will take place from **Thursday**, **12 November** to **Saturday**, **14 November 2026 during** standard construction hours of **7am** to **6pm**.

Martinus wants to assure community members that a certified asbestos contractor is carrying out all removal activities in strict accordance with SafeWork NSW regulations and industry best practice.

If work is required outside these construction hours, impacted neighbours will be notified in advance.

### Works being undertaken

- Contaminated material will be excavated
- Safe removal of asbestos containing material
- Plant and equipment to be decontaminated appropriately before leaving site

### What can I expect

Personnel in appropriate Personal Protective Equipment such as Respiratory Protective Equipment, hazmat suits, gloves and boot covers.

- Excavation activity involving the removal of existing surfaces such as rock, soil, and pavement.
- Loading, unloading and moving equipment and construction materials
- Deliveries of plant and equipment to site.
- Construction machinery and equipment operation.

### How we're managing impacts

- Contaminated materials to remain wet and/or covered to avoid airborne fibres
- Materials will be tested on site
- Use of hand tools instead of power tools
- Where possible, keeping sheets intact
- Works programmed to best minimise noise impacts.
- All plant and equipment to be decontaminated before leaving site
- The asbestos is being disposed of to a licenced waste facility.

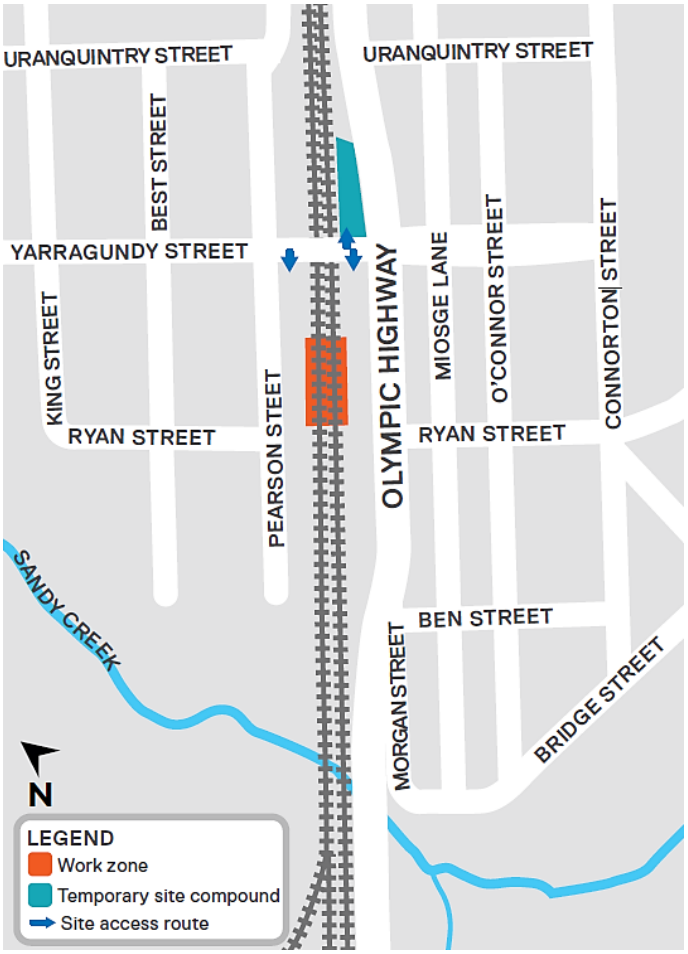

These measures ensure the work is completed safely, with controls in place to prevent any risk to the community or the surrounding environment.
